

TAP® Comebag Paperbubble

100% paper bubble mailer

TAP Comebag® Paperbubble is an integrated protective mailer with paper cushioning in the shape of a bubble.

The mailer consists of two layers of paper. The inner layer has increased grammage – 110 g/m² and a bubble-like design.

Close the loop of recycling

The TAP Comebag® Paperbubble envelope is a recyclable mono-material package that supports the Abriso-Jiffy® Group's circular economy strategy by minimizing the use of virgin raw materials.

Index	Format	Size [mm] external / internal	GSM	Color	Box [pcs]	Pieces per pallet 80 x 120 x 150
PBM14	14D	200 x 275 / 180 x 275	80/110	Brown eco	125	4 500
PBM17	17G	250 x 350 / 230 x 350	80/110	Brown eco	125	2 500
