WE CREATE. WE SUSTAIN. WE PROTECT.

ELEVATE YOUR PROJECTS WITH STYRISOL®

At Abriso Jiffy, we know that **performance, reliability, and sustainability** are key when choosing insulation solutions. Our **XPS boards** are designed to deliver **exceptional strength, efficiency and diversity**, making them the ideal choice for a wide range of applications.

WHY STYRISOL®

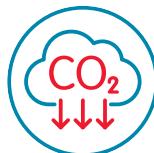

Unmatched durability

Built to withstand demanding conditions, our XPS boards provide **long-term reliability** across various applications, including **motorhomes & mobile homes, refrigerated transport, bathrooms & wellness, windows & doors**, and many more.

Tailor-made solutions

From **custom densities and sizes** to **specialized textures and edge finishes**, our XPS boards can be fully adapted to meet your exact project needs.

Superior energy efficiency

Enhance thermal performance, **reduce energy consumption**, and lower your carbon footprint – ensuring a greener, more sustainable future.

“Our Styrisol® products are specifically tailored to the needs of the building and manufacturing industry.”

XPS AT ABRISO JIFFY

A LEGACY OF INNOVATION & GROWTH

For decades, Abriso Jiffy has been at the forefront of **extruded polystyrene (XPS) innovation**, continuously investing in cutting-edge technology and expanding our capabilities to meet the evolving needs of the market. Our commitment to **quality, customization, and sustainability** has made us a trusted partner across industries.

Tailor-made solutions

High durability & resistance

Lightweight yet extremely strong

Excellent processing: cutting, shaping, laminating...

Thermal insulation

Protection & shock absorption

TAILOR MADE **XPS** SOLUTIONS

CUSTOMIZATION. OUR KEY STRENGTH

At Abriso Jiffy, we do not just supply XPS boards, **we develop tailor-made solutions** to meet the unique needs of each industry. **Customization is our specialty**, setting us apart in the market.

WHY CHOOSE OUR TAILOR-MADE SOLUTIONS?

- **Precision-cut to your specifications with slice-to-size machine**
Available in various sizes, densities & surface finishes.
- **Versatile processing**
Suitable for shaping, laminating, and detailed design work.
- **Ultra-thin options starting from 4 mm**
Perfect for marketing, branding, and display applications.
- **Reliable & scalable**
Consistent quality, whether for small batches or large-scale production.

Let's create the perfect XPS solution for your industry!

STYRISOL® FOR CONSTRUCTION STRONG INSULATION & RELIABLE

Thanks to its **exceptional moisture resistance** and **long-term durability**, our Styrisol® XPS boards are the **ideal thermal insulation solution** for roofs, floors, basements, swimming pools, and more.

PROPERTIES

Excellent thermal insulation

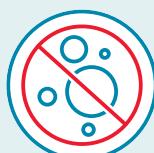

100% recyclable

High compressive strength

Non-perishable

Resistant to fungus, microbes, vermin and rodents

Easy to cut & install

Waterproof

Self-extinguishing additive

APPLICATIONS

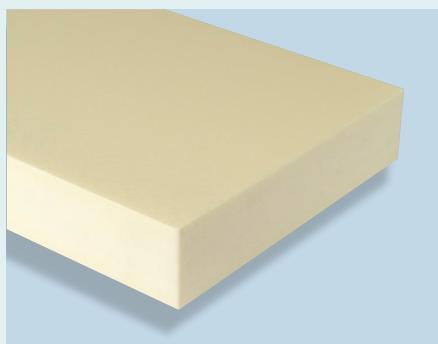

DURABLE, VERSATILE AND CUSTOMIZABLE INSULATION

TAILORED TO YOUR NEEDS

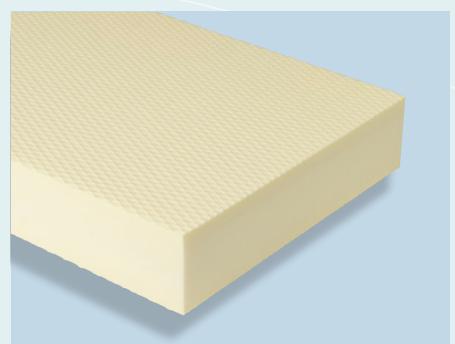

Styrisol® is available in a variety of **densities, sizes, surface textures** and **edge finishes**, ensuring a perfect fit for any project.

DIMENSIONS

- **Sizes:** 600 x 1250 mm
600 x 2500 mm
- **Thickness:** 20 mm - 160 mm
